

FOR IMMEDIATE RELEASE

**LMNT Design and 2020 Custom Visions Cater  
To All Your Design Needs**  
Miami Collective Is A One-Stop Shop

**Miami, FL – January 30, 2008** – Miami's MiMo district, 7820 NE 4<sup>th</sup> Court to be exact, is now home to one of the Magic City's best kept secrets when it comes to all things design. LMNT Design and its sister company, 2020 Custom Visions, recently moved its operation from a Wynwood warehouse to the burgeoning art community also known as Miami's Upper East Side.

"We're excited to be part of the pioneer movement bringing a creative spirit to this up and coming neighborhood," says LMNT principal Karina Schaffer. "LMNT is all about seeing a vision through from start to finish, and we see the great potential this area will surely live up to."

An all-encompassing design source, LMNT does it all. From graphic art to branding, industrial design to interior decoration, the company draws from in-house experts in graphic design, architecture and engineering to take a project from inception to production. This interdisciplinary array of individual talents affords LMNT Design a unique ability to create an entire range of products. Where all "LMNTs" of a room, office or corporate image are individual works of design crafted in concert to reflect a common ambience.

2020 Custom Visions, working in conjunction with LMNT Design, specializes in custom woodwork creations. From kitchen cabinets to living room furniture designed to meet your exact needs, all high quality, innovative pieces are inspired by your imagination.

"Start with a unique vision and see it become a reality," explains 2020 co-owner Mateos Orrego. Partner Brian Brunette elaborates, "Whenever you want quality and innovation, we deliver."

The companies' client roster reads like a who's who of the Miami elite and beyond. Domo Japones, Buck 15, Mynt, DJ Irie, Impress Digital, Red Bull, Glaceau, Nazly Villamizar, Catalyst Media, Richard Broprae, to name a few, have all made use of the many services offered by the talented individuals at LMNT and 2020.

A further collaboration between the two companies is designcrib™, a gallery showcasing both their works, as well as the work of invited guests in the fields of visual art, fashion, furniture and design. "See inside our crib where a lifestyle experience of unique art and design is born," says Schaffer.
